H.R. 539 & S. 106

Chiropractic Medicare Coverage Modernization Act

For almost 50 years, your chiropractor has been forced by antiquated Medicare laws and regulations to care for you with one hand tied behind their back. Despite being allowed by Michigan's chiropractic scope of practice to provide other beneficial, medically necessary services, like x-rays, examinations, and physical medicine procedures, Medicare restricts your access to the full range of chiropractic services, forcing you to pay out of pocket, see another health care provider (adding time and cost to your care), or to go without needed care.

Fill out the info below and we will send an email to your federal lawmakers on your behalf.
